Subject: RE: NFB Property Boundary Assessment/Holy Trinity Cemetery

Good afternoon Eric,

We are working on the RFP. We should have all the necessary information about the Subcontractor and costing within the week.

If the schedule does not permit Bellis to be at the site for the survey, is it Ok for Pete and our Subcontractor to go ahead with the survey without EPA present?

Thanks,

Ben Nwosu

Importance: High

Good Afternoon Guys:

How are you both? Can I get a status update on the property survey TDD for NFB? Mark Bellis is leaving for another Federal job, so coordinating that job with EPA personnel will be more involved now.

Also, I wanted to tell you both that late last week I was made the lead OSC for Holy Trinity Cemetery. So I will be coordinating the next phase of assessment and removal. That will include gamma survey/soil samples in the eastern area of the property and the installation of a fence around the main area of concern. This may be happening as early as mid-April. I will let you both know as soon as I have a better idea. I know that there is proposed gamma survey work/soil sampling at CRU as well. Hopefully, we can work it out with Dan to piggy back on the others weeks. Meaning, if Mount Kisco work is being conducted the week of April 14th, HTC can begin on the 21st. We shall see.

Thanks

Tim,
Mike researched the above properties on the Niagara County On-Line Mapping System. He found the different parcels located in and around the site the EPA is looking at.

I hope this helps any questions about ownership.

Ken

Ken,
Attached is a site photo from the Niagara County Property GIS Web Page and the individual parcel description with owner information for Rapids Bowl , Dunn Tire and the adjacent properties.
